**KATMAI NATIONAL PARK**

Katmai National Park and Preserve is famous for volcanoes, brown (or grizzly) bears, fish and rugged wilderness. Originally created in 1918 to preserve the famed Valley of Ten Thousand Smokes, the area was designated a National Park in 1980. The park covers an area in excess of 16,000 sq km.

Brown bear are very active in Katmai, with numbers increasing to more than 2,000. As they are not hunted and food during the summer months is plentiful, the bears are extremely tolerant of humans, and extraordinary viewing is possible. Males can grow to an amazing 10 feet in height and to be able to view and observe bear behaviour at close quarters is a privilege few people will ever experience.

Despite the park's size there are only a few places where you can view bears in Katmai and we feature both Brooks Camp (p21) and Katmai Wilderness Lodge (this page).

For quite possibly "the world's most spectacular bear viewing" we recommend you incorporate one of the tours on these pages into your itinerary.

**K**atmai Wilderness Lodge claims to offer "the world's most spectacular bear viewing" and our MD Steve Cameron was absolutely in agreement when he visited Katmai. On just one afternoon Steve saw 20 bears and was able to approach several individuals quite closely on foot. The scenery is spectacular and unspoiled as the lodge is the only private establishment on the coast of Katmai National Park's 3.6 million acre wilderness. The lodge is situated in Kukak Bay against a backdrop of majestic mountains and dramatic glaciers. Comfortable accommodation is provided in modern log cabins and deluxe meals are served in the dining room.

**Day 1 Katmai Wilderness Lodge**  
Noon transfer by float plane from Kodiak to the lodge, arriving 13.30. Afternoon game activity.

**Days 2/3 Katmai Wilderness Lodge**

Each day you will set out by boat with your guide to explore this beautiful wilderness area. Activities include guided bear viewing and photography, guided wilderness hikes, visits to archaeological sites, sea kayaking and fishing. Apart from bears, there are moose and fox in the area and many sea mammals such as orcas and sea lions.

**Day 4 Tour ends Kodiak**

Breakfast and morning activity before your midday flight to Kodiak airport. Tour ends.
