### CHOOSE FROM THE FOLLOWING:

#### NGORONGORO CRATER

Choose from the lodges featured on page 127.

#### SERENGETI NATIONAL PARK

There are many lodges and camps to choose from in the Serengeti. The Serengeti is vast, and whilst most of the safari areas have year-round resident game, most clients want to see the wildebeest and zebra migration, which means the location of camp or camps you choose is important.

Experiencing the migration is not guaranteed since animal movements can vary from year to

year depending on the rains. Our migration map on page 128 reflects normal patterns and we base our lodge/camp selection on this.

Choose your Serengeti lodge/camp from any of the collections shown below and on pages 129-138. Because virtually all our itineraries are tailor-made we can advise you on which lodge/camp suits your requirements.

#### Serengeti Serena Lodge (Central)

The 66-room hilltop Serengeti Serena Lodge has endless views over the Serengeti plains and is designed in the style of a traditional African village. Facilities include a swimming pool.

**MEET SOME OF TAKIMS' GUIDES**

**YUSUF JUMA YUSUF**

Yusuf hails from the Singida area of Tanzania, and has been guiding tourists and wildlife enthusiasts through the national parks of his beloved country for over a decade. He graduated from Mount Meru College of Tourism in Arusha, before starting his career as a driver-guide. He is passionate about animals, both large and small, winged and terrestrial. His favourite creature is the elusive leopard as trying to predict where these big cats are on any particular day requires him to exercise all his skills and years of experience. Yusuf loves meeting people from different backgrounds and cultures, as well as sharing his enthusiasm for nature, wildlife and conservation.

**NIXSON SARIA**

Nixon is a Chagga from the town of Moshi and has worked for Takims for 16 years. He started his career in tourism in the hotel industry and has a Diploma in Hotel and Management Services. Always indoors, he longed for a career outdoors. Whilst working at a hotel in Zanzibar, an Australian guest encouraged him to follow this dream. He returned to school, graduating with a Diploma of Professional Tour Guiding and joined Takims. Nixon is passionate about the "Big 5" as well as the "Small 5" and never gets tired of searching for them because finding them is a personal challenge requiring an understanding of animal movements and behaviour.

**STAY LONGER IN THE SERENGETI**  
 If you can afford the time, and your budget allows, we highly recommend you stay between 4 and 7 nights in the Serengeti to make the most of this very special place.
